SAYS BRITAIN LEADS IN CONTROL OF OIL

America to Be Dependent on British Supply, Says Sir E. Mackay Edgar.

DUE TO CARELESSNESS

Declares More Oil Has Run to Waste Here Than Ever Reached Refineries.

Special Cable Despatch to THE SUN AND NEW YORK HERALD. Copyright, 1920, by THE SUN AND NEW YORK HERALD.

LONDON, April 19.—Sir E. Mackay Edgar in a newspaper interview emphasized the prospective British dominance in the world's oil market and says that in a few years the United States will be compelled to import heavily, the payment for much of which will find a way to British coffers. He says that the situation has been well recognized everywhere but in Congress at Washington and in American popular opinion.

"In sixty years America has run through a legacy of petroleum which, properly conserved, should have lasted at least a century and a half," he says. "Improvidence, carelessness and blind gambling have marked all but the most recent phases of the American oil industry. More oil has run to waste in the United States than ever reached the refineries."

Sir Mackay pays tribute to the foresight of Alfred C. Bedford and Henry L. Doherty in securing the world for oil fields, but points out that they found themselves forestalled in almost every instance by British capitalists. He points out that America already is importing oil heavily from Mexico, but that even there the British hold "winning cards." Apart from Mexico, he says, it is almost true that Great Britain is first and the rest of the world nowhere.

Two-thirds of the improved fields in Central and South America are in British hands. The Alvea group, exclusively British, encircles two-thirds of the Caribbean on terms forever precluding American interests. The greatest oil organization is the Shell group, which owns the exclusive controlling interests in every oil field in the world—the United States, Russia, Mexico, the Dutch East Indies, Rumania, Egypt, Venezuela, Trinidad, India, Ceylon, Malay States, North and South China, the Straits Settlements and the Philippines.

Sir Mackay then reviews the British political and business arrangements in Persia and Mesopotamia and concludes: "The British position is impregnable. We will have to wait a few years for the harvest, but eventually to the tune of many million pounds annually America will have to purchase from British companies and pay dollar currency for oil. She cannot do without it and she is able no longer to furnish it from her own stores."

"We estimate that if the present curve of consumption, especially of high grade products, continues, Americans in ten years time must import 500,000,000 barrels a year. At \$2 a barrel—a very low figure—this means an annual payment of a billion dollars, most of it all of which will find its way to British pockets."

Obregon Supporters in Michoacan, Led by Gov. Rubio, in Rebellion.

MEXICO CITY, April 18.—A revolt in the State of Michoacan, engineered by Gen. Pascual Ortiz Rubio, Governor of the State and a strong supporter of Lieut.-Col. Alvaro Obregon, is announced in the Government's second war bulletin issued early to-day. Gov. Rubio has fled from Morelia, the State capital, with 60 men.

A despatch to El Universal from its correspondent in Morelia claims that Col. Obregon is in that town. It is stated that he is in open revolt. This is not confirmed officially, however.

The Government's stand with relation to Col. Obregon is commented upon approvingly by its supporters, who declare that in allowing him a free hand instead of detaining him, as would have been easy when he was here in the capital, the Government had given him opportunity to show what his real political aims were.

According to the reports, Gov. Rubio fled to the hills, taking with him the contents of the State treasury.

AGUA PRIETA, Sonora, April 18.—Demagogic resistance from Carranza soldiers Gen. Angel Flores, Sonora commander, has progressed at the rate of thirty miles a day, according to a message received here by Francisco Elias, a leader in the Sonora revolutionary movement.

After defeating Carranza forces yesterday thirty kilometers south of Guaymas, Sonora, Flores was reported as having found a locomotive, nine cars, "plenty of arms" and some horses. The prisoners were said to include six officers.

The State of Nayarit, Mexico, has endorsed the steps taken by Sonora against the Carranza Government, according to a message received last night from Gen. P. Elias Calles, commander in chief of the Sonora forces and Acting Governor.

COSTS 18 MILLIONS DAILY TO RUN U. S.

Expenditures for 12 Months to June 30, \$6,750,000,000.

WASHINGTON, April 18.—It cost \$6,028,178,000 to run the Government for the first nine months of the fiscal year, and taking this as an average, Treasury officials said to-day that total Government expenditures for the twelve months' period ending June 30 next, would reach approximately \$6,750,000,000, or more than \$18,000,000 a day.

Further appropriations by Congress and the soldier bonus, which is estimated will cost the Government \$1,000,000,000, are not included. Last December Secretary Glass figured that running expenses would amount to \$6,087,237,000. But he did not take into account the loss in Government operation of railroads.

The principal items which go to make up the nine months' expenses are: War Department, \$1,301,605,000; Railroad Administration, \$775,590,000; Navy Department, \$621,384,000; Shipping Board, \$433,100,000, and interest on the public debt \$664,232,000. Congress has spent for its own maintenance \$15,309,000, and the executive offices cost \$6,177,000.

WORLDWIDE WHEAT SHORTAGE INDICATED

Demand Increases, Says Report Reaching London.

WASHINGTON, April 18.—Indication of a worldwide shortage of wheat this year and a world wide increase in demand, was reported to-day by the American Agricultural Trade Commissioner at London, who said bread was selling in England at what was generally considered the highest price the workingman would tolerate without grave disorders. With Russia still in a chaotic state, there is little to be expected from that country in the way of wheat exports, and Europe naturally turns to the United States, Canada, Australia, India and Argentina.

Some European countries will be compelled to import much larger quantities of wheat than in pre-war times, provided they are able to arrange satisfactory credits, the report said.

The British Government has announced the maximum price for the 1920 crop to be the average price of imported wheat of similar quality, provided the price so paid the home grower shall not exceed \$2.59 a bushel. United States imports, the Commissioner reported, were ranging from \$3.04 to \$4.11, or an average of \$3.46 a bushel.

THREE HELD IN DRY RAIDS.

Shelvin's Agents Pay Visit to Longacre Square District.

Federal prohibition agents invaded the Longacre square district early yesterday morning and again last night and arrested waiters at both Jack's Sixth Avenue, near Forty-third street, and Moore's cafe, West Forty-sixth street, near Broadway, for alleged violations of the law. The raids were in charge of William Yaselli of Commissioner Shelvin's office.

At Jack's Michael Hoolihan and Harry Fern were arrested and locked up in the West Forty-seventh street station, after it is alleged, they served two Martini cocktails and a half pint of whiskey for a total of \$8. Rollin Hunt, a waiter, employed in Moore's cafe, was arrested after Yaselli, according to his charge, bought a couple of highballs. The three prisoners were later admitted to bail at \$500 each by United States Commissioner Hitchcock.

52¢

How would YOU like a raise like this?

FIRST NATIONAL BANK

Pay to the order of Rev. N.E. Pastor
Only Fifty Two Cents
Each Church Member

—and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

We Pay Him Half the Wages of a Mechanic

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic. And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plant and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can make.

America's good morning — Pluto Water

PLUTO WATER

America's Physic

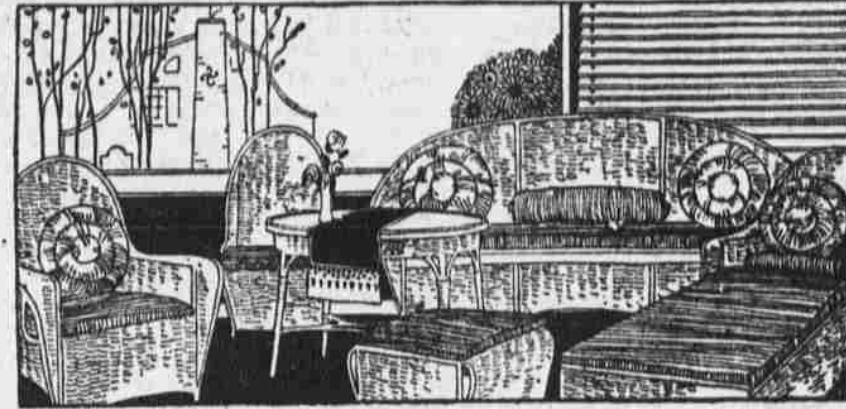

When Nature won't, Pluto will. Your physician prescribes it. Bottled at French Lick Springs, Indiana.

WANAMAKER'S

Broadway at Ninth, New York

Store Hours 9 to 5

An original suite of finely woven reed, done in our own workrooms; seven pieces, finished in black enamel, with edge of lavender. Seat cushions are filled with hair and down, and covered with purple and gold silk velvet. Pillows and bolsters are filled with down, covered with lavender and gold silk. Table has gold top, under which is a silk-covered pad. \$1,548.

Summer Furniture

Not Just Reed and Willow

There's an individuality to the summer furniture in the Wanamaker Galleries. Thought has been added. Line and color supplement the native charm of picked reed and willow. You will find something here which you will not find anywhere else—original suites for veranda or living room, and no exact copies.

Always comfortable, primarily practical furniture for the warm months, reed and willow pieces, as finished in the Wanamaker workrooms, are works of art—an inspiration as well as a comfort.

You may have a matched suite for as little as \$139

Or you may have one for \$1,758.

The \$139 suite is of reed in a frosted brown finish; settee, arm chair and rocker with cretonne covered seats.

The \$1,758 suite is of reed in black enamel, fan-back pieces with peacock tails painted by hand; settee, chaise longue, two arm chairs (one with magazine pocket), side chair, table, desk, fern stand and floor lamp; with seat cushions and pillows covered with purple taffeta with purple and gold tassel ends.

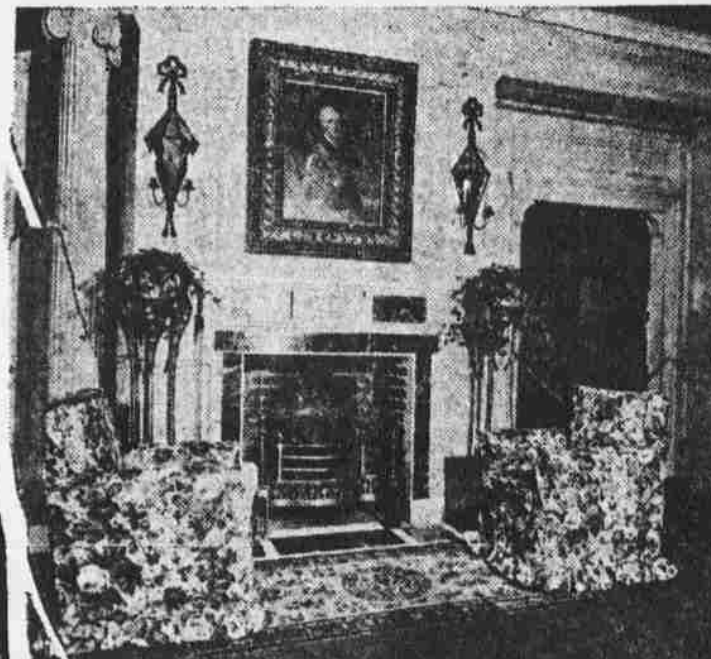

Between these two there are a score and more—all different—grading slowly, so that everybody may find at least one suite to her (his) taste.

Separate pieces

A big variety. Willow in its natural tone or enameled. Reed, in its natural tone, or shellac-finished, stained or enameled.

You may come and see this summer furniture. It is all so much better than its description.

Fifth Gallery, New Building.

Summer Furniture Covers

Are Designed and Executed by Belmaiton

Summer covers for furniture, pleasant departures from the slip-cover of yesterday that completely disguised the furniture in neutral colored bag-like arrangements of linen or equally depressing striped furniture covering in drab shades of tan and gray, are being designed and made by Belmaiton.

Illustrated above are two great arm chairs in the English hall of Belmaiton, wearing their summer covers of a soft glazed chintz in a typically English design of great gay roses against a light background. The covers have been carefully fitted to the chair and made to follow each line and curve. The edges are beautifully finished with a cording, while the bottom of each cover is edged with a little ruffle.

Finer chairs of the more delicately feminine type Belmaiton covers daintily with taffeta, covered with flowers and edged with ruffles, and often tied on with narrow French ribbons, fastened at exactly the right places to make the cover fit perfectly.

Sometimes gaily colored linen is used, and made so that it may easily be laundered, just as are the summer frocks of the mistress of the house.

All of the covers are made by expert workmen, who fit and build and sew the covers to accord immediately the exact measurements of each individual chair with a tailored precision. Estimates will gladly be made for slip-covers for both town and country houses.

Belmaiton—Sixth Gallery, New Building.

The House Shop Specializes

in little hand-made blouses that may appear with impunity with both sweater and sports suit and with trim tailored costume.

At very moderate prices

—considering the amount of exquisite hand work in each blouse.

A blouse of fine white batiste, made with a long fichu-like collar that gives a remarkably good line to the wearer. The edge of the collar is finished with a tiny hand-hemmed ruffle that is very attractive. \$8.75.

Second floor, Old Building.

Bulbs

which grow into gay flowers from June to Frost

Must be started now.

Ground is softening.

Summer flowering which enliven the garden especially during in-between periods, must be kept in mind in planning the garden.

Gladiolus, 40c and 50c doz.

Oxalis, large 15c, 10c each small.

Garden Iris, 5c each.

Cannas (yellow), 10c each, mixed 3c each.

Spider lilies, 25c each.

Dahlia roots, 15c each; 2 for 25c.

Watering Cans

of a decorative type, enameled in pastel shades and sometimes decorated, have long spouts, graceful lines and are admirably suited to summer frocks and summer gardens. \$1.75, \$2, \$2.75 and \$3.35.

Seventh Gallery, New Building.

Fine Glass Toilet Sets from France

Au Quatrième

Toilet sets consisting of six bottles in three different sizes, one glass, one soap dish, one pin and one comb-tray and one powder-box are of hand-decorated glass in typically French design and delicate color.

One set is all in tri-color, and the little bottles and the glass are laced to look like drums. Even the flat dishes of the set have that delicate little lacing painted upon them. It is very charming. Price \$175.

Another set is gay with tiny roses, and still another has French blue bands caught up with bunches of roses. Price \$180 and \$175 in order mentioned.

Other sets are a bit gayer in color, but always delicate and painted with exquisite workmanship. The least expensive is \$135, the costliest, \$195.

Fourth floor, Old Building.
